

COTTONWOOD WATER & SANITATION DISTRICT (CWSD)
BOARD MEMBER Susan Romani
Position: Treasurer
Term: Through May, 2014

Susan moved to Cottonwood in 1996. She recently retired after a long career at Newmont Mining as a senior technician in their research laboratory. Susan's analytical expertise and natural curiosity about the District's water resources peaked her interest to run for a board position in 2010. As board treasurer, she wants to help other customers better understand how water costs are determined and what the District's water source planning is to ensure a safe, reliable water delivery system for property owners today and well into the foreseeable future.

Susan is a graduate of San Diego State University where she majored in anthropology. She is the widow of a disabled Vietnam Veteran. In addition to serving on the Cottonwood Board, Susan also volunteers on the United Veterans' Committee of Colorado as the representative of Veterans' Widows/Widowers International.

Susan has also lived in Mexico, Arizona and Utah but loves Colorado's four seasons...she just wishes it had an ocean and beaches too! (who wouldn't!)
